Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Wednesday 04 Aug 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Becoming dry overnight. Rain spreading east Thursday, some heavy. Breezier.

This Evening and Tonight:
Showers dying out slowly this evening with cloud thinning after midnight leaving lengthy clear spells which will allow mist and fog patches to form inland. Minimum temperature 10 deg C (50 deg F).

Thursday:
After a fine bright start to the day with light winds, cloud will increase through the morning as the breeze freshens. Rain developing through the afternoon some heavy or thundery. Maximum temperature 21 deg C (70 deg F).

Outlook for Friday to Sunday:
Sunny spells and showers each day with a risk of thundery downpours each afternoon, perhaps with longer spells of rain Friday and Saturday. Becoming breezier. Temperatures a little below normal.
